

Ohio

Afterschool program participation in Ohio has risen from 7 percent in 2004 to 12 percent in 2009 to 15 percent in 2014. Although parent satisfaction with their child's afterschool program dropped slightly from 2009 to 2014, more than 9 in 10 Ohio parents still report that they are satisfied with their child's afterschool program. While the state has seen an increase in afterschool program participation, unmet demand for afterschool programs also continues to grow—increasing from 30 percent in 2009 to more than half of children not in an afterschool program who would be enrolled in a program if one were available to them.

2014

\$8.01

The average weekly cost only includes parents who report that they pay a fee for their child's afterschool program.

Children Unsupervised After School & Unmet Demand

Children who would participate if an afterschool program were available

Children who would participate if an afterschool program were available, by grade level

Children unsupervised after school

846,248 children in 2014

In 2014, 53% of Ohio's children would participate in an afterschool program if one were available, compared to 30% in 2009 and 23% in 2004.

431,489 children in 2014

In 2014, 23% of Ohio's children are alone and unsupervised between the hours of 3 and 6 p.m.

Children unsupervised after school, by grade

In 2014, 6% of Ohio's children in grades K-5 were unsupervised after school, compared to 19% in grades 6-8 and 31% in grades 9-12.

What barriers to afterschool program enrollment are Ohio families facing?

After lack of need, the predominant challenges parents face enrolling their child in an afterschool program include:

- Preference for alternative activities
- Lack of a safe way to get to and come home from afterschool programs
