

District of Columbia

The District of Columbia holds the number two spot in the top 10 states for afterschool in its first appearance in America After 3PM, driven primarily by the percentage of D.C.'s children who participate in afterschool programs and the amount of time that they spend in these programs. However, there remain a significant number of children in the District of Columbia who are not able to take advantage of the opportunities afterschool programs have to offer, where 2 in 3 children (66 percent) in D.C. not enrolled in an afterschool program would be enrolled if one were available to them.
