

# ERICA Louisiana

Louisiana's afterschool program participation rate and average amount of time children spend in an afterschool program both remain below the national average. However, after a drop in afterschool program participation from 2004 to 2009, Louisiana saw an increase in 2014 back to their 2004 level of 15 percent. The state did experience a substantial decrease in the time children spend in an afterschool program, dropping from 10 hours per week in 2009 to fewer than 7 hours in 2014. Overall parent satisfaction with their child's afterschool program remains steady and slightly above the national average at 91 percent.

#### Children in Afterschool

## Afterschool program participation in Louisiana

#### 115,540 children in 2014

Participation in afterschool programs has steadily increased over the past decade. In 2014, 10.2 million children are in afterschool programs, up from 8.4 million in 2009 and 6.5 million in 2004.

## Average time per week children spend in an afterschool program

2014

7 HOURS

For the purposes of this study, timing was limited to 15 hours per week in afterschool care, reflecting the hours of 3 to 6 p.m.

# Children in an afterschool program, by gender

Most families piece together a variety of afterschool solutions, with 63% of Louisiana's K-12 children spending some portion of the hours after school in the care of a parent or guardia 1. Other afterschool arrangements include traditional child care centers (9%); sibling care (12%); and nonparental adult care, such as a grandparent or neighbor (29%).

# Average weekly cost of afterschool programs

2014

The average weekly cost only includes parents who report that they pay a fee for their child's afterschool program. One in 5 parents surveyed report receiving government assistance to pay for their child's afterschool program, at an average of \$113.20 per week.

## Children Unsupervised After School & Unmet Demand
